FRANKLIN BROTHERS

THE TRIAL OF SCHLEY

No Sensational Testimony Produced at the Inquiry.

COTTON A WITNESS.

He Tells of Delivering Dispatches to Schley—Reading of Dispatches to Cotton Ruled Out by the Court of Inquiry.

Washington, Sept. 25.—Before Engineer Claxton took the stand this morning, Captain Heilner was recalled to make a verbal correction in the official copy of his testimony. He said he had several corrections that he desired to make. In one case he was recorded as giving the "bearing and the distance" of the Brooklyn. He said he had given bearing and not the distance. He made various other changes, but they were not material.

Engineer Claxton said on July 3, 1898, he had been on duty in the engine room of the Texas. The engine indicator had called for full speed and ahead early in the morning which had within an hour after the beginning of action been changed to "full speed astern." To his knowledge there had been no signal for a reversal of the engines. He said that he had been excused from service in the engine room, but still he knew the engines were reversed for about two minutes.

Rear Admiral Cotton, now commandant at the Norfolk navy yard, who commanded the auxiliary cruiser Harvard during the Spanish war, was the next witness. He told of meeting the flying squadron under Commodore Schley off Santiago May 27, 1898, and said that on that day he had delivered dispatches to the number of 10 to the commodore from Admiral Sampson and the navy department. Schley told him of the difficulties encountered in coaling from ships at sea and asked about several points that the Harvard had visited. Witness could not recommend any of them. Schley then said he would have to return to Key West for coal, and the signal for the fleet to prepare to form for the return voyage was made while witness was aboard the Brooklyn. Schley had given the witness verbal permission to go to Kingston with the Harvard and get coal enough to take that vessel to the nearest United States port.

Admiral Cotton was asked if he agreed with Schley in specific terms as to the difficulties in coaling. He replied the question was not discussed and he expressed no opinion. The conversation occurred after Schley had read the dispatches. The dispatches ordered the commander of the Harvard to inform Schley the navy department was informed the Spanish squadron was in Santiago harbor and directed him to ascertain facts and not to permit the Spanish fleet to leave without decisive action. Schley did nothing to the witness' knowledge to carry out orders.

Mr. Rayner called attention to the fact there were material changes in dispatches as printed in official reports by navy department. Admiral Schley's reply to those dispatches, dated May 29, in which he said he could not obey orders of the department were then read, and Mr. Rayner pointed out various changes in the language of the department's dispatch as printed officially. He addressed the court briefly concerning these changes.

Judge Advocate Lemly then started to read the dispatches received by Admiral Cotton from Admiral Schley, delivered by the Scorpion.

Mr. Rayner objected to reading these dispatches unless Admiral Sampson's dispatch No. 7 to Admiral Schley was read. Admiral Dewey sustained the objection.

Rayner Leading Counsel.

Washington, Sept. 25.—In answer to a question Admiral Schley stated that since the death of Judge Wilson Attorney General Isidor Rayner would be the leading counsel in his case and that he will be assisted by Captain James Parker of New Jersey and by M. A. Teague of Baltimore, as expert assistant. Mr. Rayner will continue to conduct the cross examination of witnesses as he has been doing and the other gentlemen will continue in the same capacity they occupied up to the time of Judge Wilson's death.

Missing Girl Found.

New York, Sept. 25.—Miss Helen Bloodgood is at her home here and her mother and father seem sincerely glad to get her back again safe and sound. It is said that a watchful governess had to be discharged before the young lady would consent to return. Miss Bloodgood disappeared on Thursday morning and was found in a hotel at Basking Ridge, N. J. Accounts differ considerably as to why she ran away and how she was discovered.

Two Men Killed at Dallas.

Dallas, Sept. 25.—Two murders were

committed here early this morning. Miles O'Donnell was stabbed to death in a saloon and Howard Phipps was shot to death on the street. George Ford is charged with the killing of Phipps and Tom Corbin with the murder of O'Donnell. Both men were arrested.

Fish Firm Falls.

St. John, N. F., Sept. 25.—The failure of the large fish firm of C. W. H. Tessier is announced. The principal creditor is the Bank of Montreal.

RAISE OF WAGES.

American Print Works Makes an Increase of Five Per Cent.

Fall River, Mass., Sept. 25.—The announcement that M. C. D. Borden of New York, owner of the American Print works and other factories, contemplated a 5 per cent increase in wages, is the chief subject under discussion here. The new wage schedule is to go into effect next Tuesday, Oct. 1.

After the announcement the question of what would be done by other mills in the city was presented. Nearly all of the manufacturers gave opinions that the present scale would stand and that if it became necessary to advance even a small percentage, the mills might as well shut down. Those who were willing to talk at all on the subject could not even advance a theory as to what the object of Mr. Borden could be in raising wages at this time.

The textile council called a meeting when action on the 5 per cent increase will be taken.

As a result of Mr. Borden's latest move, George A. Chase, treasurer of the Bourne mills, posted a notice of a similar increase to take effect Sept. 30. Like Mr. Borden's big corporation, the Bourne mill is not a member of the Manufacturers' association, and was not a party to recent agreements on handling products. The Bourne mill for several years has been run on the profit sharing basis, the profits going to the operatives every six months in proportion to their wages.

THE CANAL TREATY.

Prospects Excellent That Great Britain Will Ratify Changes.

London, Sept. 25.—There is no definite information here regarding the progress of Lord Pauncefoot's negotiations and the precise changes which have been suggested in Mr. Hay's previous canal treaty, but the prospects of a satisfactory adjustment of the points raised by the senate are brighter than ever before.

Lord Pauncefoot has been resting in the country and has not been actively at work influencing the ministers before sailing for America in October. His services ended before the ministers took their holidays and were scattered over the country and he was satisfied with the result.

There is a general expectation in diplomatic circles that the new treaty will be submitted to the senate in December, and that it will be ratified.

Base Ball and Athletic Trust.

New York, Sept. 25.—A great trust in baseball and professional athletics is being organized by the magnates of the National league, headed by President Hart of the Chicago club and Andrew Freeman of the New York club. Articles of incorporation of the National Athletic company, which is to be the name of the new combination, have been drawn up and the promoters expect to have control of the professional athletics before the opening of the season next spring. Tremendous saving in expenses and the abolition of costly warfare now waged between the rival organizations and between magnates and players is contemplated. Whether Hart and Freeman and their associates expect to seek control at once of cricket, athletic sports and other branches outside of baseball, they will not say. It is contemplated the capital stock is \$30,000,000. The main object of the combine will be to merge the National and American leagues.

Wholesale Grocers to Combine.

New York, Sept. 25.—Wholesale grocers from different sections of the country, but principally from the New England states, have been in conference in this city for the last two days, looking to a formation of a combination of wholesale grocers. According to the Journal of Commerce, the movement is not looked upon with favor by the leading firms of New York City, but has received support from grocers in outside sections. The scheme is to form a stock company composed chiefly of wholesale grocers of the country to the number of about 200 and later to offer stock to customers, thereby giving them direct interest in the company.

New Move Against Anarchists.

Tacoma, Sept. 25.—Charles Govan, James W. Adams and James Larkin, member of the Home Anarchist colony, have been arrested under an indictment found by the federal grand jury at Spokane, charging them with depositing in mails an obscene newspaper. They were brought to Tacoma and committed to jail pending an examination. An indictment was also returned against C. Morong, who it is claimed, was an-

thor of the objectionable article. Long is now in Massachusetts but he will be arrested and brought here for trial. The newspaper in question is the official organ of the "Home" and advocates anarchy and free love.

Shot a Woman and Suicided.

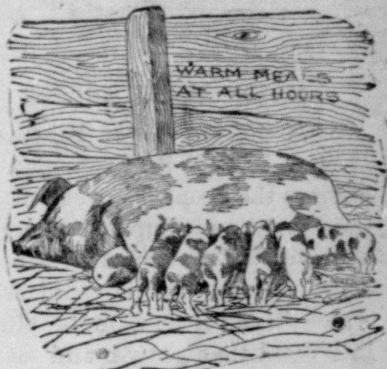

Norwich, N. Y., Sept. 25.—Henry W. Wood of Norwich shot his former housekeeper, Mrs. Elizabeth Greenleaf, and then committed suicide. The tragedy occurred at Plymouth. Mrs. Greenleaf had been keeping house for Wood about three years. Two weeks ago she left him and went to live with Louis Carnes, her brother-in-law, at Plymouth. Wood has brooded much since her departure. The woman is not expected to live.

Successful Balloon Voyage.

Vienna, Sept. 25.—Herr Herbert Silberer of the Aero club, started Monday with M. Emile Carlo in the balloon Jupiter at 10 p.m. They landed Tuesday at noon at Cuxhaven, covering a distance of 850 kilometres (531 miles) in 14 hours.

MAYOR RIGGINS COMING.

By invitation Mayor Riggins, of
Waco, will visit Bryan Friday and
address the people of the city on
the timely and important subject
of municipal growth and develop-
ment. There is no subject in
which Bryan is now more vitally
interested than growth and devel-
opment, and we predict that Mayor
Riggins will be given a rousing
welcome. He is well known as an
apostle of industry as well as a
ready and instructive speaker, and
that he will have something good
and profitable to tell us is undoubt-
ed. No admission, collection or
subscription. All are cordially
invited to attend, the ladies espe-
cially. Keep the date in mind and

FRUIT AND TRUCK.

Nacogdoches Association Organized and
at Work.

Galveston News.

Nacogdoches, Texas, Sept. 22.—
Another encouraging meeting of
the Nacogdoches Fruit and Truck
Growers' association was held this
afternoon at the opera house. It
was largely attended by farmers
and truck growers and also by
prominent business and profes-
sional men. A regular organiza-
tion was effected and a constitution
and by-laws were adopted. A
membership fee and annual dues
of \$1 each is required. A full set
of officers and committees are at
work in earnest. The active mem-
bership numbers now about 100.
The list of trucks subscribed to
date covers 125 acres in tomatoes,
25 acres in onions and an indefi-
nite acreage in potatoes. Peaches
are to be planted by the hundreds
and thousands. Ten leading busi-
ness men in town desiring to en-
courage and give confidence to the
move have organized a stock com-
pany to last one year and invest
\$2000 in the cultivation of 60 acres
in tomatoes, win or lose. But
they expect to win. This gave the
business a big boost.

Mrs. S. H. Dixon, of the Hous-
ton East and West Texas railroad,
and Prof. F. W. Mally, who has
established a farm near Garrison,
in this county, were present, and
are working hard for the cause.

Regular meetings of the associa-
tion are to be held semi-monthly.
Cotton is to be left behind.

To Test Townsite Laws.

Guthrie, O. T., Sept. 25.—Dr. Har-
row, H. B. Jones and William Crum,
original settlers, are under arrest at
Park City, because they persisted in
settling on town lots according to the
Oklahoma townsite laws, instead of
under the Kansas law as demanded by the
townsite commissioners. This is a test
case and will affect the rights of every
townsite settler in the new country.

VETOED BY SAYERS.

Says Investigation Resolution Unconsti-
tutional and Then Legalizes It.

Austin, Sept. 25.—The governor to-
day sent a message to the legislature
vetoing the concurrent resolution pass-
ed by both branches providing for the
appointment of a committee to investi-
gate the various state departments and
state institutions on the ground that it
was unconstitutional for the reason that
it had not been submitted to the chief
executive. The message was accompa-
nied by a lengthy opinion by the attor-
ney general.

The governor then sent another mes-
sage to the legislature asking its consid-
eration of the desirability of appointing
such a committee, thus leaving the mat-
ter up to the legislature. The governor
severely criticized the wording of the
resolution and said in his message that
he was not opposed to an investigation.

The house passed the appropriation
bill to engrossment, but refused to sus-
pend the rules and place it on its
final passage and the bill went over.

In accordance with the message sent
the legislature by the governor, resolu-
tions providing for investigations of the
state departments and institutions were
offered in the senate and house. The
senate passed its resolution without a
dissenting vote. The house referred its
resolution to the committee on state
affairs.

The house received without taking
action the reports of the committee
investigating the state departments.

Austin, Sept. 25.—The house went to
work on the appropriation bill yester-
day and its first action was the voting
down of a proposition to curtail the
wind-jamming. Many amendments
were offered and the debate and fre-
quent demands for roll calls impeded
progress. The attacks were made chief-
ly on the large items, principally
upon the appropriations for educational
institutions. The main university came
out whole by a scratch, but the approp-
riation for the maintenance of the med-
ical department at Galveston was cut to
\$35,000 a year from \$45,000.

The appropriation for the railroad
commission was restored to the figures
originally reported by the finance com-
mittee. The kinship provision was
stricken out.

The senate was without a quorum.

A Scene in Court.

Princeton, Ind., Sept. 25.—In the Har-
bison murder trial here, Mrs. Osborn,
mother of Frank Osborn, whom Harbi-
son is alleged to have shot and killed,
made a sensational scene while she was
on the witness stand. After several
questions she became very excited, and
waving her arms frantically, she ex-
claimed:

"My God, why did you kill my boy?
You know, Jim Harbison, you killed
him."

She rushed from her seat toward the
prisoner, bent on an assault. Her hus-
band ran between her and the prisoner
and succeeded in calming her. Her
screams were heard for several blocks.

Harbison is charged with shooting
Frank Osborn in a field near Oakland
City last August. There is great inter-
est manifested in the case.

Engineer's Head Ripped Open.

Fort Dodge, Ia., Sept. 25.—With Fire-
man Bert Simons at the throttle, two
passengers wielding the fireman's shovel
and Engineer A. L. Albright lying un-
conscious in the baggage car, passenger
No. 4 on the Illinois Central pulled in-
to Fort Dodge. The train was passing
through Ascot, 10 miles from Council
Bluffs, when it came to a sudden stop.
Conductor McGonogal hastened to the
engine, where he found Albright un-
conscious in the arms of the fireman,
who had stopped the train. Albright
had been struck on the head by a mail
crane while looking out of the cab win-
dow and his head was ripped open.
Passengers volunteered to act as fireman
and in this manner the train made the
run to Fort Dodge. Albright was taken
to a hospital. He is unconscious and is
not expected to recover.

No Invasion in Natal.

Cape Town, Sept. 25.—The moment
for a serious invasion of Natal, if such
an idea has at any time been in
General Botha's mind, has passed. Both
the Buffalo and Tugela rivers are in
flood, while General Littleton's troops
are sufficient to deal with the enemy
should he elect to cross the border. It
is thought probable that Botha's plan
of seeming to threaten Natal was in or-
der to keep the minds of the burghers
occupied, and so divert their attention
from the expiration of the term of grace
allowed by Lord Kitchener's latest pro-
clamation.

Big Orders From Spain.

New York, Sept. 25.—Spain is at
present placing extensive contracts for
railroad material and machinery in the
United States. Close to 1000 cars have
been ordered from an American car
company, which are to be used by the
Compania del Norte the principal Span-
ish trunk line and the Bilbao-Santander
railroads. The government gun factory
at Trubia, is to be equipped largely with
American machinery, tools, etc. Large
electrical orders are also being placed in
this country.

Brewery Burned.

New Haven, Sept. 25.—The brewery
formerly owned by the M. Weidman,
Sons & Co., has been totally destroyed
by fire, involving a loss of \$90,000, up-
on which there is an insurance of \$60,-
000.

gree, was convicted and given five

MEN'S OUTFITTERS.

The business and professional men of Bryan can assist greatly in making the Brazos County Truck Growers Association a success, by talking about it a little to the farmers whom they see in town. Meetings are being held this week in several communities that we have had reports from, and acreage to be put in truck is being subscribed. The movement is being forwarded by the farmers themselves, but more of them should be in it to insure its success, and every one interested in the prosperity of the town and county should help it along. The Weekly Eagle, printed today, contains an extensive write-up of the subject, giving much information that will help the movement along. Extra copies are printed to be given out free, and any one who can place one or more to advantage, is invited to call for copies for that purpose. One of these articles shows that a half million dollars was brought into Jacksonville and Tyler district this year for truck and fruit. Brazos county should get into this line of production, and get some of this pie.

If you do not eat rice you ought to. It is an ideal food, easily digested, nutritious and cheap. Send ten cents in stamps to S. F. B. Morse, passenger traffic manager Houston & Texas Central railroad, for copy of Southern Pacific cook book containing two hundred receipts for preparing rice. d254

Notice to Light Consumers.

We find upon investigation that electric light globes have been bought and sold to our patrons in any size desired, and some have substituted 32-candle power when in fact they have contracted for and are paying for only 16-candle power lights. This forces upon us the trouble of ascertaining the parties making these changes, in order that we may know the number and size of lamps used by each patron, so we can charge accordingly. All parties using lamps of a greater candle power than will be charged therefor. Our lamps can be had at our plant or at Cole Bros.' hardware store, and when globes are sold by the latter we are notified of the number, size and name of the purchaser, and by this means we can always know the number and size of lamps in use and by whom used, but when they are sold indiscriminately it is impossible for us to know. If this is continued, it will force us to change our voltage, in order to protect ourselves from such great loss.

Respectfully, Bryan Water, Ice, Light and Power Co. d252

The Eagle has received a copy of the Mecca, published at Denver, Colorado, which publishes the speech on "Industrial Progress" of Hon. J. W. Riggins, mayor of Waco, delivered at the Trans-Mississippi Commercial congress, Cripple Creek, Colorado, in July of the present year. The speech is full of good things pertinent to the subject and also full of patriotism. It was splendidly received, as was also his speech at Philadelphia. Mayor Riggins is a man well worth meeting and hearing and the people of Bryan will be afforded the opportunity at the opera house Friday night.

n this part of the state. If you have a few pen- nits in your hands, hunt him up and be made happy by buying a home for Hanner and the kids. If you have lands for sale, see him, but remember his time is money and he will not monkey with your stuff if you want two prices for it. He makes a specialty of handling large tracts of land several of which are not on this list. There is no use fooling away your time trying to sell your land when he can sell it in a few days if your price is right —the people know he has property at the right prices and they look him up when they want to buy.

THE YACHTS MEASURE.

Columbia Is Given Forty-Three Seconds Over the Shamrock.

New York, Sept. 25.—The official measurements of the cup challenger Shamrock II and defender Columbia, has been made public at the New York yacht club. The result was in the nature of a surprise, for it showed that the Shamrock, which is the larger boat so far as sail and displacement are concerned, allows only 43 seconds to the Columbia over the 30 mile course on which the contests for the American cup are to be sailed.

The Shamrock has a shorter water line length. She has a longer spinnaker boom, a larger gaff, a larger topmast and carries more canvass. Mr. Watson, the designer of the Shamrock II., by keeping down the load water line length of his yacht has got the better of his rival, Mr. Herreshoff. The sail area of the Shamrock is larger, and by judicious handling of his spars Mr. Watson is only penalized 43 seconds. The measurements of the Columbia are as follows:

Length of load water line 89.77 feet.

Length from the after end of the main boom to the end of the point of measurement or the end of the bowsprit where the jib top sail halyard block is fastened 187.3 feet.

The foreside of the mast to the end of the point of measurement or end of the bowsprit as above 73.86 feet.

Length of spinnaker boom 73.30 feet.

Length of main gaff, 64.94 feet.

Length of topmast 64.64 feet, minus one-fifth, 51.74 feet.

Upper side of main boom to the top sail halyard block 134.74 feet.

The square root of the sail area 114.93 square feet.

The sailing length as per rule, 102.355 feet.

The Shamrock's measurements are as follows:

Length of load water line 89.25 feet.

Length from the end of the main boom to the end of the point of measurement or the end of the bowsprit where the topsail halyard block is fastened, 184.03 feet.

The foreside of the mast to the end of point of measurement or end of bowsprit as above, 78.28 feet.

Length of spinnaker boom 78.28 feet.

Length of main gaff 66.17 feet.

Length of top mast 68.18 feet.

Minus one-fifth 54.54 feet.

Upper side of main boom to the top sail halyard block 143.39 feet.

Square root of sail area 118.33 square feet.

Sailing length as per rule 104.79 feet.

Both boats were measure with 52 feet on board.

The difference in the sailing length of the two boats is 1435 feet. This computed on the time allowance of the New York yacht clubs gives the Columbia an allowance of 43 seconds in a 30 mile race.

Says Dowie Will Be Shot.

Dublin, Ind., Sept. 25.—The following is a letter recently received by John Alexander Dowie, the divine healer of Chicago. It was written from Portland on a Portland hotel letterhead:

"Sir—I have read your sermons on the shooting of Mr. McKinley, and your comments on his treatment by the surgeons. In order to test the efficacy of surgical treatment as compared with your treatment, the C. S. A., of which I am a member, has decided that you shall be shot in the stomach as near the place where Mr. McKinley was as is possible, and then watch the results as regards your recovery without medical attendance. You can prepare yourself for this test or ordeal, as you will be shot as sure as night follows day before one year expires. I. A. PREIS."

Jealousy Caused Murder.

Rolla, Mo., Sept. 25.—J. S. Crosswell, an instructor at the School of Mines here, shot and killed Miss Mollie Powell of this city. The motive for the crime was jealousy. Crosswell came from Boston. He had paid devoted attention to Miss Powell. He was told his affection was not reciprocated, but continued his attentions. Monday evening he attended a birthday party given at the home of Miss Powell, and while left alone with the girl a moment he shot and killed her and then fled. If he is caught by the posse the chances are that he will be lynched.

Tried to Assassinate Him.

Hearne, Tex., Sept. 25.—While R. L. Duncan was riding over his plantation in the Brazos bottom overseeing some cotton pickers he was fired upon by one of the negro laborers, killing the horse he was riding. The officers were at once notified of the affair and are scouring the surrounding country in search of the negro, who, up to this time, has not been captured.

Dr. J. B. Sweeney Dead.

Gainesville, Tex., Sept. 25.—Dr. J. B. Sweeney, pastor of the Dixon Street Christian church of this city, died at his residence here. BRAIN-FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses adds digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at Wilson-Jenkins Drug Co.'s store. Get Green's Special Almanac. dtf

THE TRIAL OF SCHLEY

No Sensational Testimony Produced at the Inquiry.

COTTON A WITNESS.

He Tells of Delivering Dispatches to Schley—Reading of Dispatches to Cotton Ruled Out by the Court of Inquiry.

Washington, Sept. 25.—Before Engineer Claxton took the stand this morning, Captain Heilner was recalled to make a verbal correction in the official copy of his testimony. He said he had several corrections that he desired to make. In one case he was recorded as giving the "bearing and the distance" of the Brooklyn. He said he had given bearing and not the distance. He made various other changes, but they were not material.

Engineer Claxton said on July 3, 1898, he had been on duty in the engine room of the Texas. The engine indicator had called for full speed and ahead early in the morning which had within an hour after the beginning of action been changed to "full speed astern." To his knowledge there had been no signal for a reversal of the engines. He said that he had been excused from service in the engine room, but still he knew the engines were reversed for about two minutes.

Rear Admiral Cotton, now commandant at the Norfolk navy yard, who commanded the auxiliary cruiser Harvard during the Spanish war, was the next witness. He told of meeting the flying squadron under Commodore Schley off Santiago May 27, 1898, and said that on that day he had delivered dispatches to the number of 10 to the commodore from Admiral Sampson and the navy department. Schley told him of the difficulties encountered in coaling from ships at sea and asked about several points that the Harvard had visited. Witness could not recommend any of them. Schley then said he would have to return to Key West for coal, and the signal for the fleet to prepare to form for the return voyage was made while witness was aboard the Brooklyn. Schley had given the witness verbal permission to go to Kingston with the Harvard and get coal enough to take that vessel to the nearest United States port.

Admiral Cotton was asked if he agreed with Schley in specific terms as to the difficulties in coaling. He replied the question was not discussed and he expressed no opinion. The conversation occurred after Schley had read the dispatches. The dispatches ordered the commander of the Harvard to inform Schley the navy department was informed the Spanish squadron was in Santiago harbor and directed him to ascertain facts and not to permit the Spanish fleet to leave without decisive action. Schley did nothing to the witness' knowledge to carry out orders.

Mr. Rayner called attention to the fact there were material changes in dispatches as printed in official reports by navy department. Admiral Schley's reply to these dispatches, dated May 29, in which he said he could not obey orders of the department were then read, and Mr. Rayner pointed out various changes in the language of the department's dispatch as printed officially. He addressed the court briefly concerning these changes.

Judge Advocate Lemly then started to read the dispatches received by Admiral Cotton from Admiral Schley, delivered by the Scorpion.

Mr. Rayner objected to reading these dispatches unless Admiral Sampson's dispatch No. 7 to Admiral Schley was read. Admiral Dewey sustained the objection.

Rayner Leading Counsel.

Washington, Sept. 25.—In answer to a question Admiral Schley stated that since the death of Judge Wilson Attorney General Isidor Rayner would be the leading counsel in his case and that he will be assisted by Captain James Parker of New Jersey and by M. A. Teague of Baltimore, as expert assistant. Mr. Rayner will continue to conduct the cross examination of witnesses as he has been doing and the other gentlemen will continue in the same capacity they occupied up to the time of Judge Wilson's death.

Missing Girl Found.

New York, Sept. 25.—Miss Helen Bloodgood is at her home here and her mother and father seem sincerely glad to get her back again safe and sound. It is said that a watchful governess had to be discharged before the young lady would consent to return. Miss Bloodgood disappeared on Thursday morning and was found in a hotel at Basking Ridge, N. J. Accounts differ considerably as to why she ran away and how she was discovered.

Two Men Killed at Dallas.

Dallas, Sept. 25.—Two murders were

committed here early this morning. Miles O'Donnell was stabbed to death in a saloon and Howard Phipps was shot to death on the street. George Ford is charged with the killing of Phipps and Tom Corbin with the murder of O'Donnell. Both men were arrested.

Fish Firm Fails.

St. Johns, N. F., Sept. 25.—The failure of the large fish firm of O. W. H. Tessier is announced. The principal creditor is the Bank of Montreal.

RAISE OF WAGES.

American Print Works Makes an Increase of Five Per Cent.

Fall River, Mass., Sept. 25.—The announcement that M. C. D. Borden of New York, owner of the American Print works and other factories, contemplated a 5 per cent increase in wages, is the chief subject under discussion here. The new wage schedule is to go into effect next Tuesday, Oct. 1.

After the announcement the question of what would be done by other mills in the city was presented. Nearly all of the manufacturers gave opinions that the present scale would stand and that if it became necessary to advance even a small percentage, the mills might as well shut down. Those who were willing to talk at all on the subject could not even advance a theory as to what the object of Mr. Borden could be in raising wages at this time.

The textile council called a meeting when action on the 5 per cent increase will be taken.

As a result of Mr. Borden's latest move, George A. Chase, treasurer of the Bourne mills, posted a notice of a similar increase to take effect Sept. 30. Like Mr. Borden's big corporation, the Bourne mill is not a member of the Manufacturers' association, and was not a party to recent agreements on handling products. The Bourne mill for several years has been run on the profit sharing basis, the profits going to the operatives every six months in proportion to their wages.

THE CANAL TREATY.

Prospects Excellent That Great Britain Will Ratify Changes.

London, Sept. 25.—There is no definite information here regarding the progress of Lord Pauncefoot's negotiations and the precise changes which have been suggested in Mr. Hay's previous canal treaty, but the prospects of a satisfactory adjustment of the points raised by the senate are brighter than ever before.

Lord Pauncefoot has been resting in the country and has not been actively at work influencing the ministers before sailing for America in October. His services ended before the ministers took their holidays and were scattered over the country and he was satisfied with the result.

There is a general expectation in diplomatic circles that the new treaty will be submitted to the senate in December, and that it will be ratified.

Base Ball and Athletic Trust.

New York, Sept. 25.—A great trust in baseball and professional athletics is being organized by the magnates of the National league, headed by President Hart of the Chicago club and Andrew Freeman of the New York club. Articles of incorporation of the National Athletic company, which is to be the name of the new combination, have been drawn up and the promoters expect to have control of the professional athletics before the opening of the season next spring. Tremendous saving in expenses and the abolition of costly warfare now waged between the rival organizations and between magnates and players is contemplated. Whether Hart and Freeman and their associates expect to seek control at once of cricket, athletic sports and other branches outside of baseball, they will not say. It is contemplated the capital stock is \$30,000,000. The main object of the combine will be to merge the National and American leagues.

Wholesale Grocers to Combine.

New York, Sept. 25.—Wholesale grocers from different sections of the country, but principally from the New England states, have been in conference in this city for the last two days, looking to a formation of a combination of wholesale grocers. According to the Journal of Commerce, the movement is not looked upon with favor by the leading firms of New York City, but has received support from grocers in outside sections. The scheme is to form a stock company composed chiefly of wholesale grocers of the country to the number of about 200 and later to offer stock to customers, thereby giving them direct interest in the company.

New Move Against Anarchists.

Tacoma, Sept. 25.—Charles Govan, James W. Adams and James Larkin, member of the Home Anarchist colony, have been arrested under an indictment found by the federal grand jury at Spokane, charging them with depositing in mails an obscene newspaper. They were brought to Tacoma and committed to jail pending an examination. An indictment was also returned against C. Morong, who it is claimed, was an

thor of the objectionable article. Long is now in Massachusetts but he will be arrested and brought here for trial. The newspaper in question is the official organ of the "Home" and advocates anarchy and free love.

Shot a Woman and Suicided.

Norwich, N. Y., Sept. 25.—Henry W. Wood of Norwich shot his former housekeeper, Mrs. Elizabeth Greenleaf, and then committed suicide. The tragedy occurred at Plymouth. Mrs. Greenleaf had been keeping house for Wood about three years. Two weeks ago she left him and went to live with Louis Carneros, her brother-in-law, at Plymouth. Wood has brooded much since her departure. The woman is not expected to live.

Successful Balloon Voyage.

Vienna, Sept. 25.—Herr Herbert Silberer of the Aero club, started Monday with M. Emile Carlo in the balloon Jupiter at 10 p.m. They landed Tuesday at noon at Cuxhaven, covering a distance of 850 kilometres (531 miles) in 14 hours.

MAYOR RIGGINS COMING.

By invitation Mayor Riggins, of
Waco, will visit Bryan Friday and
address the people of the city on
the timely and important subject
of municipal growth and develop-
ment. There is no subject in
which Bryan is now more vitally
interested than growth and devel-
opment, and we predict that Mayor
Riggins will be given a rousing
welcome. He is well known as an
apostle of industry as well as a
ready and instructive speaker, and
that he will have something good
and profitable to tell us is undoubt-
ed. No admission, collection or
subscription. All are cordially
invited to attend, the ladies espe-
cially. Keep the date in mind and
be at the opera house at 8 o'clock
p. m.

FRUIT AND TRUCK.

Nacogdoches Association Organized and at Work.

Galveston News.

Nacogdoches, Texas, Sept. 22.—
Another encouraging meeting of
the Nacogdoches Fruit and Truck
Growers' association was held this
afternoon at the opera house. It
was largely attended by farmers
and truck growers and also by
prominent business and profes-
sional men. A regular organiza-
tion was effected and a constitution
and by-laws were adopted. A
membership fee and annual dues
of \$1 each is required. A full set
of officers and committees are at
work in earnest. The active mem-
bership numbers now about 100.
The list of trucks subscribed to
date covers 125 acres in tomatoes,
25 acres in onions and an indefi-
nite acreage in potatoes. Peaches
are to be planted by the hundreds
and thousands. Ten leading busi-
ness men in town desiring to en-
courage and give confidence to the
move have organized a stock com-
pany to last one year and invest
\$2000 in the cultivation of 60 acres
in tomatoes, win or lose. But
they expect to win. This gave the
business a big boost.

Mrs. S. H. Dixon, of the Hous-
ton East and West Texas railroad,
and Prof. F. W. Mally, who has
established a farm near Garrison,
in this county, were present, and
are working hard for the cause.

Regular meetings of the associa-
tion are to be held semi-monthly.
Cotton is to be left behind.

To Test Townsite Laws.

Guthrie, O. T., Sept. 25.—Dr. Har-
row, H. B. Jones and William Crum,
original settlers, are under arrest at
Park City, because they persisted in
settling on town lots according to the
Oklahoma townsite laws, instead of un-
der the Kansas law as demanded by the
townsite commissioners. This is a test
case and will affect the rights of every
townsite settler in the new country.

VETOED BY SAYERS.

Says Investigation Resolution Unconsti-
tutional and Then Legalizes It.

Austin, Sept. 25.—The governor to-
day sent a message to the legislature
vetoing the concurrent resolution pass-
ed by both branches providing for the
appointment of a committee to investi-
gate the various state departments and
state institutions on the ground that it
was unconstitutional for the reason that
it had not been submitted to the chief
executive. The message was accompa-
nied by a lengthy opinion by the attor-
ney general.

The governor then sent another mes-
sage to the legislature asking its consid-
eration of the desirability of appointing
such a committee, thus leaving the mat-
ter up to the legislature. The governor
severely criticized the wording of the
resolution and said in his message that
he was not opposed to an investigation.

The house passed the appropriation
bill to engrossment, but refused to sus-
pend the rules and place it on its
final passage and the bill went over.

In accordance with the message sent
the legislature by the governor, resolu-
tions providing for investigations of the
state departments and institutions were
offered in the senate and house. The
senate passed its resolution without a
dissenting vote. The house referred its
resolution to the committee on state
affairs.

The house received without taking
action the reports of the committee
investigating the state departments.

Austin, Sept. 25.—The house went to
work on the appropriation bill yester-
day and its first action was the voting
down of a proposition to curtail the
wind-jamming. Many amendments
were offered and the debate and fre-
quent demands for roll calls impeded
progress. The attacks were made chief-
ly on the large items, principally
upon the appropriations for educational
institutions. The main university came
out whole by a scratch, but the approp-
riation for the maintenance of the med-
ical department at Galveston was cut to
\$35,000 a year from \$45,000.

The appropriation for the railroad
commission was restored to the figures
originally reported by the finance com-
mittee. The kinship provision was
stricken out.

The senate was without a quorum.

A Scene in Court.

Princeton, Ind., Sept. 25.—In the Har-
bison murder trial here, Mrs. Osborn,
mother of Frank Osborn, whom Harbi-
son is alleged to have shot and killed,
made a sensational scene while she was
on the witness stand. After several
questions she became very excited, and,
waving her arms frantically, she ex-
claimed:

"My God, why did you kill my boy?
You know, Jim Harbison, you killed
him."

She rushed from her seat toward the
prisoner, bent on an assault. Her hus-
band ran between her and the prisoner
and succeeded in calming her. Her
screams were heard for several blocks.

Harbison is charged with shooting
Frank Osborn in a field near Oakland
City last August. There is great inter-
est manifested in the case.

Engineer's Head Ripped Open.

Fort Dodge, Ia., Sept. 25.—With Fire-
man Bert Simons at the throttle, two
passengers wielding the fireman's shovel
and Engineer A. L. Albright lying un-
conscious in the baggage car, passenger
No. 4 on the Illinois Central pulled in-
to Fort Dodge. The train was passing
through Ascot, 10 miles from Council
Bluffs, when it came to a sudden stop.
Conductor McGonogal hastened to the
engine, where he found Albright un-
conscious in the arms of the fireman,
who had stopped the train. Albright
had been struck on the head by a mail
crane while looking out of the cab win-
dow and his head was ripped open.
Passengers volunteered to act as fireman
and in this manner the train made the
run to Fort Dodge. Albright was taken
to a hospital. He is unconscious and is
not expected to recover.

No Invasion in Natal.

Cape Town, Sept. 25.—The moment
for a serious invasion of Natal, if such
an idea has at any time been in
General Botha's mind, has passed. Both
the Buffalo and Tugela rivers are in
flood, while General Littleton's troops
are sufficient to deal with the enemy
should he elect to cross the border. It
is thought probable that Botha's plan
of seeming to threaten Natal was in or-
der to keep the minds of the burghers
occupied, and so divert their attention
from the expiration of the term of grace
allowed by Lord Kitchener's latest pro-
clamation.

Big Orders From Spain.

New York, Sept. 25.—Spain is at
present placing extensive contracts for
railroad material and machinery in the
United States. Close to 1000 cars have
been ordered from an American car
company, which are to be used by the
Compania del Norte the principal Span-
ish trunk line and the Bilbao-Santander
railroads. The government gun factory
at Trubia, is to be equipped largely with
American machinery, tools, etc. Large
electrical orders are also being placed in
this country.

Brewery Burned.

New Haven, Sept. 25.—The brewery
formerly owned by the M. Weidman,
Sons & Co., has been totally destroyed
by fire, involving a loss of \$90,000, up-
on which there is an insurance of \$90,-
000.

Five Years for Murder.

Bryan, Tex., Sept. 25.—In the district
court here Will Johnson, a negro,
charged with murder in the second de-
gree, was convicted and given five
years.

The Eagle has received a copy of the Mecca, published at Denver, Colorado, which publishes the speech on "Industrial Progress" of Hon. J. W. Riggins, mayor of Waco, delivered at the Trans-Mississippi Commercial congress, Cripple Creek, Colorado, in July of the present year. The speech is full of good things pertinent to the subject and also full of patriotism. It was splendidly received, as was also his speech at Philadelphia. Mayor Riggins is a man well worth meeting and hearing and the people of Bryan will be afforded the opportunity at the opera house Friday night.

Notice to Light Consumers.

We find upon investigation that electric light globes have been bought and sold to our patrons in any size desired, and some have substituted 32-candle power when in fact they have contracted for and are paying for only 16-candle power lights. This forces upon us the trouble of ascertaining the parties making these changes, in order that we may know the number and size of lamps used by each patron, so we can charge accordingly. All parties using lamps of a greater candle power than 16, unless specially contracted for will be charged therefor. Our lamps can be had at our plant or at Cole Bros.' hardware store, and when globes are sold by the latter we are notified of the number, size and name of the purchaser, and by this means we can always know the number and size of lamps in use and by whom used, but when they are sold indiscriminately it is impossible for us to know. If this is continued, it will force us to change our voltage, in order to protect ourselves from such great loss.
